JG / Whittaker

RE: WILLIAM WHITTAKER

SEPT. 24, 1926

I called at the City yards and stables and interviewed a man by the name of George Conlon, of 524 Second Avenue, Highland Park, New Brunswick. He said that he had worked at the yards for a long time, Whittaker worked there in the daytime and at one time was night watchman. He said he knew the "Pig Woman" to talk to and that she used to come there and complain to him about Whittaker leaving her and living with Mrs. Mattison. Mrs. Mattison at that time lived directly across from the yards on the second floor of a two family house. He said he told the "Pig Woman" it was none of their business what Whittaker did after working hours, and she, the "Pig Woman", told him to tell Whittaker that he had better come up and see his child.

This man is respectable and makes a good appearance.

JOHN GREGORY, JR.
